

2.5.3 IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in Examination Management System (EMS) of the Institution

Examination Reforms

IT integration

IT integration is made on the Examination Procedures which ensures transparency and effective management of examination system.

A student will be permitted to take an End-of-Semester (final) Examination in any course if he/she has the required attendance. The attendance is entered online which makes the students to check and maintain their attendance properly.

Online enrolment is made by the students for the end-of-semester examination which enhances the accuracy in filling of forms. Examination fees have also been made online. The hall tickets have been issued online which saves the time and resources of students and the issue of duplicate copies of printed hall tickets can be avoided. Computerised valuation is being made by the introduction of MCQs in Section A which are done in OMR sheet. The Exam Schedule for both CIA and EOS is published online by the office of the Controller of Examinations.

The Course Teachers shall value the answer scripts after the conduct of each test / assignment / quiz under the CIA within a week and return the scripts / papers to the students after making online entries. In the case of EOS also, after consolidation, the marks are entered online and the results published online after it has been placed in Senatus and then in Awards Committee.
